PRIORITY ACTION ITEMS

- 1 Heading Structure (H1)** Score: 0

Add one H1 tag. Every page should have exactly one H1 heading.

One H1 per page helps search engines understand your page's main topic. Multiple H1s dilute your SEO signal.
- 2 Structured Data** Score: 0

Add structured data (JSON-LD) to help search engines understand your content and enable rich results.

Schema markup (JSON-LD) enables rich results in Google — stars, FAQs, breadcrumbs — increasing click-through rates.
- 3 Image Alt Tags** Score: 0

104 of 104 images are missing alt text. Add descriptive alt attributes.

Alt text describes images to search engines and improves accessibility. It also ranks in image search.
